

Big Provincial Gathering 2019

Full Descriptions of the Workshops

#1 - Speaking our Faith: Sacred Conversations as a Launching Pad for Evangelism

Presenter: Kit Carlson, All Saints Episcopal Church-East Lansing, MI

Kit Carlson is rector of All Saints Episcopal Church in East Lansing and author of "Speaking Our Faith: Equipping the Next Generations to Share the Old, Old Story" (Church Publishing 2018). The Speaking Our Faith program has helped hundreds of "God's shy people" become more comfortable talking about their faith.

Workshop Description

It's hard for Episcopalians to share their faith, because generally we have not been taught how to speak about our own faith...even to people within our own churches. Sacred conversations can help build the capacity to speak about faith honestly and can start to help people feel more comfortable talking about their faith with people outside their "church circles." This quick plunge into sacred conversations will whet participants' appetites for speaking about faith and encourage them to take a deeper plunge when they get home to their own faith communities.

#2 - Creating Community, Changing Lives: How St. Margaret's House created a Ministry of Hospitality for women and children in poverty

Presenters

Kathy Schneider, Exec. Director, Cathedral of St. James, South Bend, IN

Mary Fran Brandenberger, Assoc. Exec. Director

Tanika Harris, Director of Guest Services

Workshop Description

In 1990, Deacon Sarah Tracy and Episcopalians from the parish and from around the diocese, created a ministry of hospitality for women and children in poverty. Today, this day center serves an average of 70 women and children a day with basic needs and programs to help people to move forward in the context of a community of care and respect. It is a place where guests, volunteers, staff and donors create a community where all lives are changed in positive ways. St. Margaret's House serves as a national model of what can be created when people come together to help one another.

#4 - OIW How becoming a more Open, Inviting and Welcoming faith community can change the way we evaluate success within membership development.

Presenters: Jordan Trendelman, St. Alban's, IN
Christina Connelly

Workshop Description

What does it mean to be an Open Inviting and Welcoming Church? We will retrace our parish's journey through the OIW initiative and how it has effected the culture of our church family. What started as an attempt to foster new membership ultimately resulted in a dialogue that has enriched and prepared our congregation for the uncertainty that we face in tough times. The focus of the workshop will be to provide tools so that other faith communities can challenge themselves to ask the hard questions and embrace the vulnerability that comes with with being open to one another. We will discuss the importance of invitation that starts within the parish walls long before it is extended to the community at large. Finally we will examine how welcoming one another into each others spiritual lives is not just something that is done the first time we meet but is an ongoing aspect of deepening relationship.

#5 - What Do You Do When Church Is Not Enough

Sr. Donna Ruth - n/AF

We all see that the world is changing all around us. The people of God have seen change before. What did they do to address their own spiritual longings? What does this mean to the changing needs of the people of God today? For some, that longing today is filled through new monasticism.

What is New Monasticism and/or dispersed religious communities? How does it work with your daily life? How do you discern if God is calling you to this life? Have you been wondering about these things? Come join us to gain an understanding of what it's all about. Find out how to put your desire into action.

#6 - Racial Reconciliation in a Small Indiana Town

Presenters

Jim Warnock, Gethsemane Episcopal Church, Marion, IN

Kresha Warnock

Bill Munn

Mindy Hancock

Workshop Description

This workshop will be based on work we've done in Marion, Indiana. My parish has been involved in reconciliation ministry for about a dozen years. After the election of President Trump, we partnered with an AME church and participated in several rallies and a special showing of the film "Selma." In 2017 we put together a seminar largely for students at two evangelical colleges in Marion. "Love Thy Neighbor," addressed largely to white people, talked about white privilege and asked if we, today, bore responsibility for events in the past.

This led us into further partnerships with an African-American parish near us. We did a second seminar, "Uprooting Racial Injustice," in 2018. We will talk about these seminars, offer people time to participate in some of the discussion exercises we used, and have time for questions and interaction.

#10 - Becoming the Story We Tell: How Narrative Learning Theory Can Transform Our Congregations

Presenters

The Rev. Debra K. Bullock, Rector, St. Mark's Episcopal Church (Evanston, IL) is completing her Doctor of Ministry in Congregational Growth and Development at Bexley Seabury Seminary. Her thesis is "Becoming the Story We Tell: Preparing a Congregation to be Catechumenate Ready"

The Rev. Canon John W. B. Hill holds an honorary doctorate from Trinity College, Toronto, for his work on restoring the catechumenate in the Anglican Church of Canada. The focus of his work over many years has been clarifying and strengthening the ritual practices of the Church in a time when the role of the Church in society is rapidly changing; he is the author of two books on Baptism and many articles on the renewal of the liturgy.

Workshop Description

Imagine re-entering the deep drama of the gospel through liturgy, scripture study, and reflection. Imagine the whole community gathering at the Easter Vigil with a renewed gratitude for the connection between baptism and our annual immersion in the story of Christ's passion. Imagine this renewal spilling over into joy in mission and outreach. Just as the way we pray shapes the way we believe so too the stories we tell about ourselves shape the way we live out our lives as followers of Jesus. Join us as we learn about narrative learning and situated learning theories and are introduced to a process for preparing congregations to become catechumenate-ready.

#11 - Traditional, Formation, and Depth: Welcoming and engaging Millennials in your parish family

Presenters

Garwood Anderson, Nashotah House Theological Seminary, WI

Rev. Ryan Pollock, Assisting Evangelist - Diocese of Dallas, Curate for Young Adults - St. Matthew's Cathedral, Dallas, TX

Workshop Description

"The Millennials" are perhaps the most written-about generation in human history, at least in part because their ways of identifying what matters to them and how they decide to invest their time and energy are so different than the generations that have come before.

Where young adult ministry for the last 40 years focused on a departure from tradition and shying away from inter-generational dialogue, against all odds, Millennials are filling churches

and chapels from New York to California not for the rock bands or fresh expressions meant to attract them, but for the quiet experience of centuries-old Compline chanted by candlelight and old-fashioned pot-luck dinners. Searching for authenticity, and longing to truly belong, the older ideas of ministries to young adults and their young families need to shift to meet these desires in the hearts of Millennials.

Hear from an evangelist to young adults and an experienced leader in seminary education as they discuss the roles of tradition, spiritual formation (not just information), and the search for depth as a framework to understand what young adults and their young families are seeking in a parish family, and share ideas for how parishes of any size can welcome this next generation of leaders through authenticity and being really present to one another.

His other activities include Licensed Lay Preacher and Stephen Minister. His day job is leading research and development for a specialty chemical company in Cincinnati OH.

Workshop Description

Over the past four years, the Commission on Ministry (CoM) of the Diocese of Southern Ohio (DSO) has developed an approach to fulfill our canonical obligation to support discernment for lay people. Our journey started with reading and reflection to develop our guiding principles. We then used structured brainstorming to help clarify our objectives. Finally, we employed a novel planning technique known as “back-casting” to resolve some internal barriers and to create an action plan. The culmination has been the development of three separate approaches that support discernment for laity – and to-date the DSO CoM has tried out two of these three approaches. In this presentation we will share details of our journey and our results – including a diocesan lay discernment workshop entitled “Listening to our Lives” conducted

this past fall that had 24 participants. We will also give participants some hands-on experience with the “back-casting” planning technique.

It has been estimated that at least 50% of those confirmed drop out of active church membership. Reviewing the history of confirmation and the faith development of adolescents, as well as their cognitive, emotional and physical growth stages, can perhaps inform our understanding of how we can develop a better model of youth preparation. The effectiveness with which we interact and communicate with the cultures of others is called intercultural competence.

In this workshop we will use a tool called the Intercultural Development Continuum to help us assess our own attitudes, comfort, and effectiveness in interacting with different cultures, and

Presenter: Steven Peay, All Saints' Cathedral, Milwaukee, WI

Steven Peay is Associate Dean/Canon Residentiary at All Saints Cathedral and Research Professor of Homiletics and Church History/Dean-President Emeritus at Nashotah House Theological Seminary. He spent 18 years as a Benedictine monk and has discovered the value of *lectio divina* in the preaching process.

Workshop Description

“Eat this book” is a phrase that shows up several times in the Bible. Monastic writers saw this as an invitation to truly ingest and incorporate the Word. Mariano Magrassi writes, “The divine energy received in the sacrament becomes rooted in our soul. The demands of the Word are the same, since it forms a single table with the Eucharist. It is not enough to eat; we must assimilate, or as the ancients would say, ‘ruminate.’” Thus *lectio sacra* is the natural complement of ecclesial proclamation.” This ruminant practice can be a vital part of sermon preparation – feeding both the preacher and the hearer. This workshop will examine the venerable, and practical, practice of *lectio divina* in sermon preparation.

#54 - Learning from London: Mission and Evangelism in the 21st Century

Presenter: Jason Fout, Bexley Seabury Seminary Federation

Workshop Description

We've all heard the news: the Episcopal Church in the US has shrunk by 24% over the last decade, and our prospects look dim. Many reasons for this decline are offered: growing secularity, the rise of the "nones", changing attitudes towards religion and religious observance, the encounter with other religions. But inevitable decline is not the only story to be told for Anglicanism in the developed world.

Since 1990, the Diocese of London in the Church of England has grown by around 70%. This has come about through a combination of dynamic local parish programs, strategic planning for planting and renewing churches, and an inspiring vision set forth by the diocese. All of this has taken place in the midst of one of the most diverse, vibrant, cosmopolitan, multi-faith and secularized urban centers in the world.

How has this come about? And what may be learned from London's methods for our own context? Join Jason Fout for an introduction to the many facets of the mission and evangelism taking place in the Diocese of London.

#55 - Faith Based Response to the Opioid Crisis

Presenters

Jeff Butcher, The Brotherhood of Saint Andrew, National Office, Louisville KY
Karl Colder, former DEA Special Agent in Charge and Brotherhood of St. Andrew
Waring Webb, Brother Andrew
Ted Main, Brother Andrew

Workshop Description

First Responders are called upon to engage in critical situations because they have the skills and tools to effectively address the needs of people in crisis. People who are impacted by substance use disorder, both users and those they know and love, often feel isolated, lack meaning in their lives, are unable to effect meaningful change on their own, experience despair, and feel inadequate to overcome the overwhelming nature of substance use disorder. The Church is uniquely poised to be on the front-lines of responders to this crisis because we offer inclusion into a supportive and nurturing community, the reminder that we are all created in the image of a loving God, and the promise that Jesus brings healing to every one of us. As a church community we can provide effective resources for addiction and recovery along with the hope that comes from our faith that God's love and efficacy is available to everyone.

This workshop will briefly cover how the crisis evolved; why the church serves as a first response in the crisis, and how the church can use its platform to effect change in the opioid crisis.

In this workshop, we’ll recount the ways we have worked together, our successes and failures, and invite you to consider new models of clergy collegiality. Come talk with us about how to build connections and networks because it’s so easy to become isolated.
